

Session 2: Faithful Men in a Woke Culture

1. As Christian men we should recognise the power and effect of sin

2. As Christian men we should fight against oppression and injustice

3. As Christian men we should trust the power of the gospel

Questions for discussion:

Do you find the idea of being 'woke' positive or negative, helpful or threatening?

How has becoming a Christian and understanding the gospel helped you to understand the reality of sin in the world?

How do you think Christian men can take a lead in standing against injustice and abuse in society today?

How can we, as Christian men, help to ensure that the church is a new community of love and justice that makes the gospel attractive to people who have experienced injustice or oppression?

How can we seek to persuade people that the gospel is the answer to the world's longing for justice rather than a cause of oppression? How important do you think this is in today's society?
